Heritage & Restoration

Working in the heritage sector of the built environment requires specialist skills and knowledge. Restoring old buildings and repurposing those that aren't in use is important work, as it can help contribute to sustainability by reusing materials and reducing the need to build buildings from scratch. It's a challenge to restore buildings sympathetically, whilst adhering to modern regulations.

The CIOB produces events and activities to inspire and support professionals with a particular interest in conservation, adaptation and restoration of historic buildings.

Sponsoring one of the CIOB's heritage activities is a perfect way to raise the profile of your organisation by putting you at the heart of important conversation and demonstrating an alignment with CIOB values of professionalism and excellence to those who are working in the heritage sector.

As a registered charity, CIOB are dependent on the support of sponsors to enable us to host world class events and ensure our members continue to benefit from our commitment to promoting the science and practice of building for the benefit of society, and we thank you for your support

We offer a 10% discount on sponsorship packages to CIOB company members
